

## Cooperation with the Skin and Laser Center at the Opera House

The doctors at the Skin and Laser Center are specialized in all things concerning **aesthetic medicine**, the diagnosis and therapy of skin diseases and a broad spectrum of allergic disorders. If you're concerned about a skin cancer check-up or various vaccinations, the Munich Center is also just the right place for you.

Here everything revolves around **beautiful and healthy skin**. The Center's doctors know: correct nutrition contributes enormously to a positive state of the skin and can therefore sensibly support select treatments and operations.

The cooperation with "the bodycoach" is of particularly special importance in the fields of aesthetic medicine and **medical cosmetics**. Particularly in cases of **liposuction, lifting and cellulite treatments**, the food-coaching program supports the Center's medical procedures. The cooperation in this field demonstrates the professionalism of both partners, who know that health and beauty are always the result of an interplay of multiple factors.

The subject of "**anti-aging**" is also an important one and very present, both in the field of laser therapy as well as in food-coaching. "the bodycoach" offers a very special, distinct program that is directed towards slowing down the skin's ageing process.

Of course this has its limits, at which the Skin and Laser Center comes in, such as in case of the pigmentation removal. The cooperation is not only directed at beauty issues. In the treatments of **allergic reactions**, the cooperation and interaction between medical treatment and diagnosis with the added measure of a change of diet can often help the patient reach his or her goals faster.

In the end, the cooperation aims towards strengthening the patient's well-being. Aside from health and medical aspects, it also takes into consideration a **valuable quality of life, greater physical resilience and healthy charisma**.

Both the "Skin and Laser Center" as well as "the bodycoach" work on an independent basis. Through their cooperation, both partners offer their clients an extended range of services and useful synergies.

Caroline Bienert: *"The Skin and Laser Center at the Opera just makes you feel so incredibly comfortable. The Center is very elegantly designed with much love for detail and offers an unbelievably relaxing atmosphere. The three head physicians and their team radiate professionalism and calm – an oasis for every patient."*
